

David E. Rodgers

David E. Rodgers is Director of Strategic Planning and Analysis within the Office of Energy Efficiency and Renewable Energy (EERE) at the U.S. Department of Energy.

Mr. Rodgers has been with the U.S. Department of Energy for 19 years and has served in the Department's energy efficiency programs for buildings, industry, and transportation. Prior to being designated Director of Strategic Planning and Analysis in February 2009, Mr. Rodgers was Deputy Assistant Secretary for Energy Efficiency.

During his career at the Department of Energy, Mr. Rodgers has experience with regulatory development, R&D management, deployment activities, partnership development, business systems, and planning and analysis. Mr. Rodgers has received degrees in chemical engineering and computer science from Washington University in St. Louis, and a masters in public management from the University of Maryland. He is a former Presidential Management Fellow. In the private sector, Mr. Rodgers has experience in the chemical, petroleum, and computer industries.

From July 2005 through July 2006, Mr. Rodgers served as the Program Manager for the Building Technologies Program. From December 2004 through June 2005, Mr. Rodgers served as Acting Program Manager for the Industrial Technologies Program. Mr. Rodgers served for three years as Senior Advisor to the Deputy Assistant Secretary for Technology Development in EERE. From 1996 through 2002, Mr. Rodgers served as the Director of the Office of Technology Utilization within the Office of Transportation Technologies.
